WHAT I DO

I set up Zoho so your leads stop falling through the cracks. As Head of Operations at a fintech group that brought in US$8M+ in 18 months, I moved the whole business onto Zoho One and connected LinkedIn, email, WhatsApp and calling to one CRM. I help small businesses do the same, without a full-time systems hire.

SERVICES

Zoho CRM setup and migration
Modules, layouts and roles built around how your team sells; old data moved across cleanly.

Pipelines and custom modules
Deal stages that match your process, plus modules for agents, commissions or payouts.

WhatsApp Business automation
Approved templates, sequences, bot-to-human handoff and consent tracking via Interakt.

Lead capture into one CRM
Website forms, WhatsApp and calls land in the CRM with their source and context.

Outbound automation
LinkedIn and email prospecting (Sales Navigator, PhantomBuster, Instantly) tracked in the CRM.

CRM clean-up and reporting
Fix the data faults that make reports lie, then build dashboards people use.

RECENT BUILD

The business: a fintech group with three brands and three customer journeys (retail, white-label partners and an intern-agent referral programme).

What I built: one Zoho One org with 3 deal pipelines and 4 custom modules, a multi-channel outbound engine feeding the CRM, WhatsApp automation for agent recruitment, and an API link from the corporate website.

The result: every lead tracked from first touch to closed deal across a group that brought in US$8M+ in 18 months, with commissions traced to the right agent and deal.

HOW I WORK

01 Free audit
A 30-minute call to see how leads flow today and where they leak.

02 Plan and quote
A written plan with a fixed price, so there are no surprises.

03 Build and test
I build it, then test it with your team on real leads.

04 Handover
A short guide and screen-recorded walkthrough for your team.
